Professional Summary

Motivated software developer with a strong passion for learning and exploring emerging technologies. Committed to writing clean, efficient code and delivering reliable, user-focused software solutions. Eager to grow through hands-on experience and mentorship while contributing meaningfully to high-impact projects.

Technical Skills

Languages: C#, SQL, JavaScript, Typescript, XAML

Frameworks & Patterns: ASP.NET MVC, .NET Web API, MVVM(MAUI), Clean Architecture

Technologies: .NET, .NET CORE, Microsoft SQL Server, SQLite, Version Control

Certifications: Angular, .NET MAUI

Experience

(2+ Years)

Software Engineer, Covalience – Mohali

January 2024 – Present

- **Member Tool and Management System – "theConnection" (.NET Web API, Angular) – Gideons International**

- Engineered over 20+ backend API endpoints using .NET Web API, improving system reliability and scalability.
- Developed and optimized stored procedures, reducing data retrieval time by 30%.
- Delivered responsive Angular UI components, enhancing user engagement and front-end performance.
- Achieved 90%+ unit test coverage using NUnit, supporting robust CI/CD pipelines and lowering bug rates.

- **Cross-Platform Mobile App – GideonNow (.NET MAUI) – Gideons International**

- Implemented 10+ custom handlers and validation services to streamline cross-platform UX across iOS and Android.
- Integrated native OS features (camera, local storage, notifications), expanding app functionality by 40
- Automated staging and production deployments using CI/CD pipelines, including Firebase App Distribution, reducing release time by 60% and enabling faster testing cycles.

Software Engineer Intern, Covalience – Mohali

July 2023 – December 2023

- **Data Integration Migration – Zoho to Monday.com**

- Engineered a middleware system integrating Zoho and Monday.com using webhooks and multi-level API calls, automating recruitment workflows and reducing HR effort by 30–40
- Applied FluentValidation and clean architecture principles to improve code maintainability, enhance readability, and minimize long-term technical debt.

- **Data Migration System (ASP.NET MVC) – Gideons International**

- Migrated and validated over 50,000+ member records from legacy systems with minimal downtime.
- Leveraged FluentValidation and NUnit to ensure 98%+ data accuracy and system stability after migration.
- Automated report generation with iTextSharp, improving audit reporting efficiency by 60%.

Education

Graphic era Hill University, Bachelor of Technology in Computer Science

October 2020 – July 2024

Accomplishments

- Led a hackathon team focused on building an AI-based real-world solution; secured runner-up position through strong contributions to ideation, development, and final presentation.
- Represented college in an inter-college eSports tournament; earned second runner-up position as part of a competitive gaming team.
- Earned certifications in Angular and .NET MAUI while actively contributing to professional projects.
